

TERRA FORCE-R

Dual purpose tyre for adventure riders

TERRA FORCE-R

LONGER SERVICE LIFE

Strong Carcass Technology maintains the carcass rigidity at a high level even as the tyre wears, thereby prolonging the optimum driving performance throughout the tyre's service life.

HIGH GRIP AND STABILITY

Using the finite elements analysis (FEA) and a special computer-assisted simulation, optimum tyre construction was designed to achieve the highest level of grip, but at the same time rigid enough to achieve driving stability.

MAXIMUM CONTROL

In Mitas TERRA FORCE-R design, the tread groove depth follows the shape of actual tyre tread wear.

LESS OVERHEATING

3-D Optimum Groove Technology (OGT 3D) is featured by optimum tread groove direction, optimum groove depth and less overheating of tread compounds.

Cooling ribs

Safe, dynamic and rider-friendly tyre

- Immediate grip, excellent traction on wet or dry roads, strong carcass and high puncture resistance.
- Easy steering and manoeuvrability with good straight and corner stability.
- Consistent performance through its lifetime and under heavy loads.
- Most modern elastomers and high active fillers for excellent grip in all conditions, optimal balanced wear rate and maximum confidence.
